

```
1 const setDelay = (callbackFunc, delay) => {  
2   let timePassed = 0  
3   while (timePassed < delay) {  
4     timePassed ++  
5   }  
6   callbackFunc() // Call the function argument  
7 }  
8  
9 const sayDone = () => window.alert('done')  
10 setDelay(sayDone, 500)  
11 setDelay(() => console.log("also DONE"), 250)
```

```
1 const setDelay = (callbackFunc, delay) => {  
2   let timePassed = 0  
3   while (timePassed < delay) {  
4     timePassed ++  
5   }  
6   callbackFunc() // Call the function argument  
7 }  
8  
9 const sayDone = () => window.alert('done')  
10 setDelay(sayDone, 500)  
11 setDelay(() => console.log("also DONE"), 250)
```

Call Stack

```
1 console.log("Hello Techlahoma")  
2  
3 setTimeout(() => {  
4   console.log("Thunderplains Conf")  
5 }, 2000) // wait two seconds
```
